

TIMETABLE

KOMBIVERKEHR DIRECT TRAINS

Planning for the current timetable period
As at 27. April 2023

More than just a transport.

CARRIAGE AND TIMETABLE GUARANTEE

The published timetable details are given without guarantee and do not constitute delivery dates. There is no guarantee of carriage nor of adherence to the timetables. If the capacity of a train is exceeded or there is a shortage of wagons, the consignments of customers who have reserved fixed capacities will be processed first as a matter of principle once the deadline for registration has expired. In the event that the delivery date is exceeded, claims for compensation owing to delays may only be lodged in accordance with the General Terms and Conditions of Business of Kombiverkehr. In addition, Kombiverkehr reserves the right to specify the route for gateway traffic.

SPECIAL ARRANGEMENTS / VARIATIONS TO THE REGULAR TIMETABLE

The publications and online applications referring to the Kombiverkehr timetable (special timetable regulations, timetable download on the internet, online search for connections and personal timetable booklets) contain all the definite medium to longterm timetable variations concerning the direct trains, relating to current monthly timetables, public and general holiday arrangements, track closures and route deviations due to building works. As a rule these variations are taken into account in the production of timetables four weeks prior to the relevant event (e.g. date of public or general holiday, start of track closure, etc.).

This does not apply for connecting and onward services or ferry services where special regulations mean there may also be deviations in journey times. For short-term timetable variations, please refer to customer information provided by National and International Transport and by Transport Monitoring.

Please note that the start of pick-up is normally postponed to the next working day if the day of arrival falls on a public holiday. There may be deviations from the normal pick-up times after public holidays as well. If the holiday falls on a departure day, the closing time for acceptance may be brought forward. Please find out about this directly from the terminals or from the staff of National or International Transport and the Team Scheduling.

PROFILES

The timetables show the permitted profiles on every route for semi-trailers (P = cranable semi-trailer) and containers (C = swap body/container), each with 2- and 3-digit profile numbers. Variations may apply for bank and public holiday arrangements as well as for construction works.

By simply comparing the profile number in the timetable with the one on the yellow code sign attached to the loading unit, it can be ascertained whether the loading unit can be transported on the required route. Transport is possible if the profile number on the code sign is no higher than the profile number in the scheduled timetable for the relevant route. Detailed information on this can be found on the myKOMBIVERKEHR portal.

This does not apply for routes – mostly those with restricted profiles – on which special low-bed freight wagons are used, enabling higher swap bodies, containers and semi-trailers to be transported than stated in the timetables.

The profile tables on page 3/4 show the relevant measurement in centimetres of the height of the corner for each profile and for three different vehicle body widths: up to 2.50 m, up to 2.55 m and up to 2.60 m.

⑤ **1 Out:** If applicable, when delivering or collecting your loading units in Basel please note customs opening hours (generally Mon - Fri 7:30 - 18:30).

⑬ **Out:** Booking Deadline Monday 17:00 (ONLY FOR MARITIME TRAVEL)

User Notes

- ① Terminal place
- ② Terminal, agency and booking information
- ③ Terminals served by trains. German terminals are listed first in alphabetical order, followed by the foreign ones in order of country symbols.
- ④ Options for onward shipment from this terminal. For more detailed information please contact our staff in National and International Transport.
- ⑤ Information on the route and on traffic restrictions
- ⑥ Timetable details for direction and opposite direction. Timetable details are given both for the outward journey to other terminals and the return journey from other terminals.
- ⑦ Number of changes in gateway transport (loading units switched between direct trains)
- ⑧ Days of dispatch are those days on which the route is operated; they are marked as 1 = Monday, 2 = Tuesday, 3 = Wednesday etc.
- ⑨ Closing time is the time at which the last loading unit is accepted at the local Kombiverkehr-Agency.
- ⑩ The day of arrival and pick-up time give the earliest day and time at which the loading unit can be collected from the receiving terminal. The following applies: Day A = day of dispatch, Day B = next day, Day C = next day but one etc. In this connection it is absolutely essential that you also take note of the paragraphs on "Closing time, pick-up time and close of booking" and "Special arrangements for public holidays". If loading units are not picked up, they will be parked for a fee. The parking fees can be called up for each location at the myKOMBIKERHR portal.
- ⑪ Profiles give the maximum permitted corner height of loading units on this route. The profiles are coded. If it is not possible to transport a specific type of loading unit on a route, then this is marked with "-". These details apply to outward and return journey.
- ⑫ Train number
- ⑬ The booking deadline (only for maritime transports) is the time by which a booking for a transport order must have been received by the responsible booking office with all the information required for the shipment of the loading unit.
